Unistrut Aisle Containment System™

with Cable Management

Atkore's Newest Data Centre Solution for Faster Installs

Let Atkore help reduce the complexity of your data centre project by offering a fully designed and engineered system to meet your needs. This solution incorporates Atkore manufactured products to cut back on lead times and schedule delays which saves time and money. Our expert team of installers with years of experience in data centres can build this modular structure offsite to reduce onsite congestion and potential safety hazards of traditional containment products.

Key Features

- Customised Configurations
- Modular Top Design
- Seismic Rating
- Installation Services
- Engineering & Design Services

Product Options

- Height of Structure
- Width of Aisle
- Length of Aisle
- Number of Cantilever Arms
- Sliding or Swing Doors
